SUMMARY

Final-year Computer Science undergraduate with full-stack MERN and Generative/Agentic AI project experience. Software Developer Intern at Neologicx; built 3 production-grade systems spanning real-time communication, RAG pipelines, and agentic voice coding. JPMorgan Code For Good finalist; dual AWS-certified; 450+ LeetCode problems solved.

EDUCATION

SRM Institute of Science and Technology

B.Tech – Computer Science and Engineering | GPA: 9.13 / 10

Chennai, India

June 2023 – May 2027

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, HTML5, CSS3, SQL

Frameworks & Libraries: React.js, Node.js, Express.js, Redux, Tailwind CSS, Bootstrap, REST APIs, FastAPI

AI / ML: Machine Learning, Deep Learning, Generative AI, Agentic AI, RAG Pipelines, LangChain

Databases: MySQL, MongoDB, Redis, Vector Databases

DevOps & Cloud: AWS, Docker, Kubernetes, Git, GitHub, CI/CD

EXPERIENCE

Neologicx Resources Pvt. Ltd.

Software Developer Intern

Bikaner, Rajasthan

May 2026 – July 2026

Stack: React.js, Node.js, Express.js, MongoDB

- Resolved **15+ frontend bugs** across **3+ existing client web applications**, pairing with senior developers to trace and fix defects without regressing live functionality.
- Delivered **5+ new features** on production MERN codebases, extending existing architecture and coding standards under senior engineering guidance.

Intel Corporation

AI/ML Industrial Trainee – Intel Unnati Program

Remote

May – July 2024

Stack: Python, OpenCV, TensorFlow, PyTorch, Cython

- Built **DePixAI**, a real-time CV system pairing edge detection with a CNN super-resolution model to restore pixelated image, reaching **90% accuracy** and a **40% quality gain**.
- Profiled and rewrote bottlenecks in the model serving layer, cutting end-to-end inference latency by **70%** while keeping accuracy unchanged.

PROJECTS

NexusMeet / React.js, Node.js, Express.js, Socket.IO, WebRTC, MongoDB

- Developed a live video conferencing platform with peer-to-peer audio/video and screen sharing.
- Verified support for **4+ concurrent participants** with **sub-100ms signaling connection time** across client tests.
- Implemented JWT authentication and persisted meeting history in MongoDB for secure sessions.

DocuTutor-RAG / Python, LangChain, FastAPI, Redis, Vector Database

- Engineered a RAG platform indexing **1,000+ document chunks** in a vector store for LangChain-based question answering, achieving **92% retrieval relevance** across a manually evaluated benchmark of **50 domain-specific queries**.
- Added an async pipeline with Redis caching and concurrency locking for simultaneous document queries.
- Instrumented the service with performance metrics and added test coverage for pipeline reliability.

VoxCode / Python, FastAPI, WebSockets, JavaScript

- Designed a voice-driven web IDE where an autonomous LLM agent runs a PLAN-TOOL-OBSERVE-OUTPUT loop over WebSockets, validated across **25+ development prompts** for reliable task execution.
- Sandboxed agent file execution to a restricted workspace directory, blocking path traversal and absolute-path access for safe autonomous operation.
- Enabled optional text-to-speech narration of agent output alongside live streamed UI updates.

ACHIEVEMENTS

- The Big Code Challenge 2026 – Google (April 2026):** Placed in the Top 1,500 out of 70,000+ candidates nationwide in this national coding competition.
- Code For Good – JPMorgan Chase & Co. (June 2025):** Selected from over 15,000 applicants to join this hackathon; led engineering for the team, which finished runner-up among 20+ competing teams.
- Ossome Hacks 2.0 – GitHub Community SRM (March 2025):** Shipped an AI-powered Ed-Tech application during a 36-hour hackathon and won 1st place among all competing teams.

CERTIFICATIONS

- ServiceNow:** Certified Application Developer (April 2026) | Certified System Administrator (October 2025)
- Amazon AWS:** Certified Cloud Practitioner (March 2026) | Certified AI Practitioner (February 2026)

COMPETITIVE PROGRAMMING

- LeetCode:** SujalP21 – 450+ problems solved. | **HackerRank:** Sujalpareek21 – Gold Badge solved 100+ problems.

VOLUNTEER EXPERIENCE

- Arham Education Society (June–July 2025):** Taught Scratch and Python to 50+ underprivileged students through weekly workshops.
